
Legacy Building Update, September, 2026

- The worship center slab has been poured and the walls for the ramps leading into the terrace seating are being built.
- The concrete for part of the chapel and the parlor area has been poured. A section of this area was not poured to allow the crane to have space to be placed to set up the steel beams for the building.
- Steel is being erected in the worship center, so you can now visualize our new worship center. (See photos below)
- Keep watching the progress of the new building, because the framing of the walls will start in October!
- The missing deeds have been located, and we are on schedule to begin the replatting process which is needed before a Certificate of Occupancy can be obtained once the building is completed.
- A church member will be providing the cornerstone for the new building, and we are currently in the design and proofing stage for the cornerstone.

Specific Prayer Requests

- Pray for 100% of our members to be involved in some way in the Legacy Building project.
- Pray that we will continue to meet our church budget as well as we continue to minister in the name of Jesus.
- Pray for God to continue to be in the entire process and lead us divinely.
- Pray that people will continue to be flexible and godly during this time and realize everyone is sacrificing some type of convenience during this time.
- Pray that FBCG will learn aspects about God and His character through the building project and God will grow our faith as we are built into a habitation of God as His people while the church building is constructed physically.
- Pray for God to provide the resources needed for this project.
- Pray that wise plans are made with all the different logistic changes being made to make sure we keep people safe.
- Pray that the workers who come to our campus will sense the presence of God while they are here.
- Pray for the building schedule to be achieved.
