FOCUS

It's a new year! 2023 is now in the rearview mirror. As we step into 2024, a lot of people like to reflect on the past year and plan for the year ahead. It can be a great time to refocus and resurge. There are so many distractions around us that we can easily lose sight of what is important. What are some distractions in your life? Things that take your focus off what is really important? Maybe it's your job, your circumstances, your spouse, your children, your parents, or just the business of life that has caused you to lose focus. We see Paul lose focus in Matthew 14. He let the distractions surrounding him overtake his focus. When he kept his focus on Jesus he was able to miraculously walk on water, but the moment he took his eyes off Jesus he sunk and struggled to stay afloat. Let this be a lesson, whether we are practicing, playing, studying, working, or whatever we are doing, may we remember to keep our focus on Jesus and He will lead us on the path He has prepared for us.
